

## BETHLEHEM PARKING AUTHORITY

### OUR NEW IN-LANE PAY SYSTEMS

This month, the Bethlehem Parking Authority will begin using new, fully-automated, in-lane pay systems at our Walnut Street and North Street Garages. During this transition period, there will be BPA employees to assist customers at exit.

**Daily rates of six dollars (\$6) will remain the same; however the hourly rate will be reduced from \$1.00 per hour (or any part of an hour) to \$.75 per hour, (or any part of an hour).**

**The garages will operate 24 hours a day, Monday through Saturday.**

**Sundays will be free: Please note that the gates will remain down on Sunday to collect any payment due from previous days' parking fees. Tickets pulled on Sunday will allow for free exit on Sunday.**

**Non-monthly contract customers** will pull a ticket to enter the garage. They will need this ticket to insert into the machine at exit. **Payment must be made at the time of exit and can be made by use of credit cards – Visa, MasterCard, Discover, or Cash.** The new system will allow you the convenience of paying at exit while remaining in your vehicle.

**Monthly contract customers** will need new “key cards” to be used for entrance and exit. A switch to new key cards will take place over the next couple of weeks; companies and individuals will be notified when to make the exchange. Monthly parking fees (\$55) will remain the same.
