

PARKBETHLEHEM

ParkBethlehem is a strategic initiative designed to optimize parking efficiency and improve the visitor experience in the city of Bethlehem. By dividing metered parking areas into two distinct zones with tailored pricing to meet varying parking needs, Park Bethlehem aims to encourage rapid turnover in high-demand areas while also promoting the use of lower-demand metered spaces and convenient city parking garages.

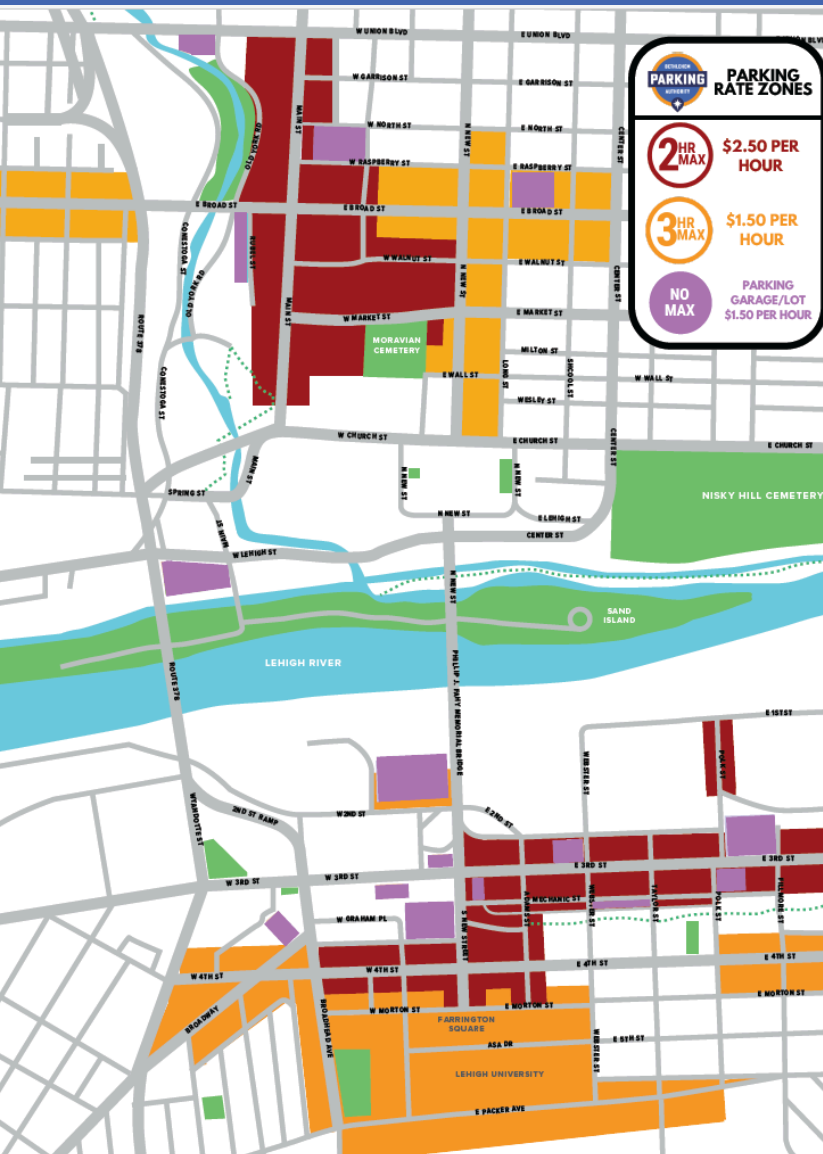

The purpose of this rate structure is to increase on-street parking turnover in the core high-demand areas, helping drivers find more available parking spaces quickly and decreasing traffic congestion.

RapidPark Zone

- **Location:** High demand parking areas.
- **Rate:** \$2.50 per hour
- **Maximum Stay:** 2 hours
- **Description:** Perfect for quick visits. The higher rate, combined with a two hour max, encourages turnover, ensuring visitors have access to the most convenient parking.

FlexPark Zone

- **Location:** Low demand parking areas.
- **Rate:** \$1.50 per hour
- **Maximum Stay:** 3 hours
- **Description:** Ideal for longer visits. The lower rate and extended maximum stay of three hours, helps to promote availability in the most convenient parking spaces.

PARKING METERS & PAYSTATIONS WILL BE MARKED WITH COLORS AND SIGNAGE THAT INDICATES THE ZONE. THIS MAP ILLUSTRATES EACH ZONE
